MRS. J. H. DODSON, Pres.

DEMOCRATIC SPEAKING LAST NIGHT.

A crowd of about one hundred men were out last night at the Court House to hear the Hon. H. V. McChesney speak in the interest of the Democratic party. Mr. McChesney is a brilliant speaker but of course his views on the tariff, the income tax and other vital issues are radically different from those of this paper.

DR. J. JAMES WOOD PASSED THREE QUARTER CENTURY MARK.

Yesterday, October 19th, Dr. J. James Wood of Forest avenue, quietly celebrated his 75th birthday anniversary. This genial and popular gentleman is still well-preserved in body and mind despite the fact that he has been a living witness of over half the history of Mayssville. Dr. Wood is passing the sunset of life happily and contentedly, with his family in his palatial home, and his legion of friends hope and expect him to round out a century.

MANAGER NEAL HUBBARD

Retires From Gem Theater Next Saturday Night, After Three Years' Service.

Beginning next Monday Mr. Sherman Arn will replace Mr. T. Neal Hubbard as manager of the Gem Theater.

Mr. Arn, who is one of the owners of The Gem, will now devote his entire time to this popular movie house.

T. Neal Hubbard is almost too well known to Mayssville theatergoers to say anything more of him. But The Public Ledger wishes to voice the sentiment of thousands who have known and associated with this genial and smiling gentleman that he leaves The Gem with the united regret of all. Neal has been managing The Gem for the past three years and has been six years with the movies in Mayssville.

Good luck to him wherever he goes.

NEWPORT ROLLING AND ANDREWS STEEL MILLS RESUME OPERATIONS.

Furnaces in the Newport Rolling Mill and the Andrews Steel plant were not in operation Monday morning. W. N. Andrews, president of the steel plant, states he is unable to say when either plant will resume operations. The demoralized condition of steel and iron business is the principal cause for closing of the mills, he said. Advantage, however, will be taken for making necessary improvements in both plants. Should orders come in at any time either plant may be put in operation at short notice. The pay roll in both mills exceeds \$40,000 every two weeks.

The Republican attack on the war revenue bill was continued in the Senate by Senator Penrose. He declared that the measure was "war legislation in time of peace," and said that the necessity for additional revenue arose from the "total failure of the Democratic fiscal policy of tariff for revenue only."

As far as the National Farmer is concerned, we have had enough of college professors and Chautauqua lecturers at the head of national affairs. What we want and what the people demand is a business administration and Protection to farmer. Let's get busy this fall.—Bay home industries and the American City (Mich.) National Farmer.

OUR FOREIGN BORN.

A special bulletin issued by the Department of Commerce shows that there were 13,515,888 persons of foreign birth living in the United States when the last census closed in 1910. These figures show an increase of approximately 3,500,000 over the number of foreigners residing here in 1900. The increasing ratio is slightly in excess of the general increase in population.

Approximately 10 per cent. of this foreign-born population live in New York. The census statistics show that 1,221,013 took up permanent residences in New York, although only 475,000 have become citizens of the United States.

The world-wide prayer for peace has not taken effect, judging from the headlines in the dailies.—Dover News.

Strangely enough, the explanations given by the various parties as to the cause of the war are much more easily reconciled than the reasons given for the advance in the price of certain commodities.

At the recent State primary in California, the bulkiest of the Bull Moose States in 1912, the Republicans pulled a larger vote than that of the Progressives and the Democrats combined, and "Hi" Johnson was a candidate, too.

THE DAILY NOVELETTE.

The Mysterious Knocking.

The house was still
With the stillness of death.
It wasn't Bill Jones
And it wasn't Maebeth.

Suddenly, out of that intense quiet, there came an im-
perious knocking at the door.
"Open!" cried a loud voice. "Open, or I'll break in the door!"

From inside there came no answer—no sound save now
and then a faint ruffling.

The knocks grew louder, more insistent. They developed
into bangs.

"Open, I say! Open immediately, or I swear I'll break
the lock!"

And the banging continued ceaselessly, ominously. What
dastardly crime can the poor wretch inside have committed?

Ah, a voice from within!

"I'll let you in," it says. "Give me just two minutes
and I'll let you in."

"Two minutes! Ha-ha! That's good. Bah, for you
two minutes!" And the mighty fist kept up its ceaseless
thunder on the panels.

At last the door opened, and Rugglesby Sprong, in his
bath robe, passed out with his towel over his arm.

Hunscombe Street, also in his bath robe, pushed roughly
past him into the bathroom.

"A pretty note!" he growled. "This is the third morn-
ing this week you've made me late at the office by bugging
the bathroom for three quarters of an hour."—Louisville

A WARNING TO MANY

Some Interesting Facts About Kidney Trouble.

Few people realize to what extent
their health depends upon the condition
of the kidneys.

The physician in nearly all cases of
serious illness, makes a chemical analy-
sis of the patient's urine. He knows
that unless the kidneys are doing their
work properly, the other organs cannot
readily be brought back to health and
strength.

When the kidneys are neglected or
abused in any way, serious results are
sure to follow. According to health
statistics, Bright's disease which is
really an advanced form of kidney
trouble, caused nearly ten thousand
deaths in 1913, in the State of New
York alone. Therefore, it behooves us
to pay more attention to the health of
these most important organs.

An ideal herbal compound that has
had remarkable success as a kidney
remedy is Dr. Kilmer's Swamp-Root,
the great Kidney, Liver and Bladder
Remedy.

The mild and healing influence of this
preparation, in most cases, is soon re-
alized, according to sworn statements
and verified testimony of those who
have used the remedy.

If you feel that your kidneys require
attention, and wish a sample bottle,
write to Dr. Kilmer & Co., Binghamton,
N. Y. Mention this paper, enclose ten
cents and they will gladly forward it to
you by Parcel Post.

Swamp-Root is sold by every drug-
gist in bottles of two sizes—50c and
\$1.00.

TWO NERVOUS WOMEN

Made Well By Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I had a severe
case of nervous prostration, with palpi-

aches, dizziness, noise in my ears,
timid, nervous, restless feelings and
sleeplessness.

"I read in the paper where a young
woman had been cured of the same
troubles by taking
Lydia E. Pinkham's
Vegetable Compound so I threw away
the medicines the doctor left me and be-
gan taking the Compound. Before I
had taken half a bottle I was able to sit
up and in a short time I was able to do
all my work. Your medicine has proved
itself able to do all you say it will and I
have recommended it in every household
I have visited."—Mrs. MARY JOHNSTON,
110 Siegel Street, Philadelphia, Pa.

Another Bad Case.
Ephrata, Pa.—"About a year ago I
was down with nervous prostration. I
was pale and weak and would have hy-
stERIC spells, sick headaches and a bad
pain under my shoulder-blade. I was
under the care of different doctors but
it did not improve. I was so weak I could
hardly stand long enough to do my dishes.

"Lydia E. Pinkham's Vegetable Com-
pound has made me well and happy and
have begun to gain in weight and my
face looks healthy now."—Mrs. J. W.

A man has to buy shoes to fit his feet
but no matter how long a woman lives
she will always order the same size
shoes she wore when she was sixteen.

There may be a lot of heroes in the
world, but no woman will admit that
she is married to one of them.

Love is a thing you can get over. But
you can't make a girl believe it when
she is engaged.

Any woman would rather attend a
course of lectures on How To Make

mend socks to gain her object.

A man is always more polite when he
is a widower than he was when he
wasn't.

What has become of the old-fashioned
man who used to cure boils with a

The men have made such a terrible

is no reason why the women should

There is a difference between "an

ALIMONY IS REFUSED

Kentucky Woman Who Took Down Picture of Hubby's Mother.

Frankfort, Ky.—By removing his mother's picture from the wall of their bedroom and placing in its stead the picture of one of her relatives, Mrs. Elizabeth Ames, wife of George Ames, of Campbell county, caused a breach in the domestic felicity of the husband and wife which could not be healed by friends of the family. Mrs. Ames disliked her husband's mother because of some remarks that had been made about her wedding ring while she was living with her mother-in-law.

These facts were disclosed in the record in the case which was decided by the Appellate Court, and in which the judgment of the Campbell Circuit Court was affirmed. The Court declined to give Mrs. Ames alimony.

A WARNING TO MANY

Some Interesting Facts About Kidney Trouble.

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's disease which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in 1913, in the State of New York alone. Therefore, it behooves us to pay more attention to the health of these most important organs.

An ideal health compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy.

The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy.

If you feel that your kidneys require attention, and wish a sample bottle, write to Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper, enclose ten cents and they will gladly forward it to you by Parcel Post.

Swamp-Root is sold by every druggist in bottles of two sizes—50c and \$1.00.

THE SPREAD OF HOG CHOLERA.

County Democrat A. M. Casey asks the cooperation of farmers and others interested in staying the spread of hog cholera in Mason county. It is urged that all dead animals (whether dying from cholera or from any cause) be burned or buried at once. The disposition of the carcasses of hogs that have died of hog cholera, in out of the way places, on the surface of the ground where the infection may be carried for miles by running water or where it may be disseminated by dogs, buzzards, etc., is little short of criminal, and is in violation of the live stock sanitary laws of the State. It is required by law to burn all such carcasses, and not to do so lays the offender liable to arrest and prosecution. Birds, dogs, etc., may bring infection from a long distance and in feasting on any dead animal may leave the germs of this most deadly of all hog diseases on premises not before infected, therefore the necessity to burn, or bury all dead animals. Carcasses should be buried at least four feet under ground, hogs may run up shallow buried carcass, and dig them out. Hogs weakened from vermin and internal parasites are very susceptible to cholera infection.

FEDERAL COURT

To Convene at Covington Today—Judge Cochran Names Grand Jury.

Judge A. M. J. Cochran, presiding over the United States court for the Eastern district of Kentucky, will convene the October term of court in Covington at 10:30 o'clock Monday morning. A large number of civil cases have been prepared by Court Clerk J. W. Menzies. Among them are a number of local interest, such as the injunction suit of the South Covington & Cincinnati Street Railway company against the city of Covington. This action is relative to the new street car franchise ordinance drawn up by former City Solicitor Blakely. The Traction company applied in the Federal court for an injunction seeking to prevent Covington from receiving or accepting bids or in any way attempting to award a new franchise. Arguments were made last fall when Judge Cochran took the case under submission. He probably will hand down his decision during the present term of court. The suit instituted by the city of Newport against the C. & O. railroad and others also is on the equity docket.

Petitions for alleged damages instituted by S. L. Blakely, administrator, Donald Hall, Justice Page and Nellie Dugger against the Cincinnati Motor Car and Amusement company, appear on the docket.

The grand jury will be impaneled by Judge Cochran from the following: J. S. Fugate, Mason county; J. J. Suber, Newport; J. H. Huey, Union; J. W. Morgan, Cardova; Fred Faulstich, Covington; George Colvin, Palmouth; Jas. Prather, Corinth; Thomas J. Vice, Moorefield; F. M. Smith, Mt. Zion; L. W. Moore, Warsaw; George V. Evans, Stewartsville; V. L. Jordan, Brooks ville; B. A. Ogden, Newport; C. J. Craven, Ladlow; Ben. Eberman, Covington; William Vest, Sherman; P. H. Mason, Sparta; Ben. Adams, Bedford; Thomas Remmecker, Dowingsville; J. B. Kemper, Glenaca.

It has been feeding and roosting with the turkeys all summer and every evening it can be seen going to roost in the chicken yard with its daytime associates.

INCOMPETENCE IN REVENUE POLICY

Free-Trade Administration Unable to Cope with Economic Problems or Check Extravagance.

(St. Louis Globe-Democrat.)

What we will be taxed for under the new war tax will be extravagance and incompetence. It is a false pretense, which cannot be proved by facts as we know them, or as they are reported in the official statistics, to claim that \$100,000,000 of additional revenue must be raised to offset the loss in revenue imports caused by the war in Europe. Losses in import revenues began with the second month of operation of the present tariff law, and continued steadily. Inevitably the loss was greater in August than in preceding months, for in that month, the first of the war, Germany, Austria, France and Great Britain, the four countries which lead all others in the bulk of our importations, were unable to send us anything. Yet the falling off of \$10,000,000 in that month was not so greatly in excess of the falling off in earlier months under the present tariff law, as a Wilson, in his address to Congress, sought to make it appear. This fact is easy to understand. A large percentage of the imports was of goods made free of duty, and a falling off in such importations could in no way affect Government revenues. In many other lines, in which sharp reductions in duties are made in the Underwood law, the volume of imports had for months been steadily increasing while the revenues derived from them had been running steadily lower for months than they had run under the Payne-Adams law.

We were facing a delinquency before the war began. The present tariff law, was, admittedly, framed on the basis of an estimated loss to the treasury of \$10,000,000 annually. This estimate had been exceeded in the actual losses up to the dates of the German declarations of war against Russia and France. Another source of loss was in receipts from the income tax. These receipts, owing either to bungling estimates in the office of the comptroller, or to inefficiency or negligence, in the collection of the tax, could be seen falling far short of what had been expected. This tax had been confidently relied upon for supplying the great loss in Tariff revenues which the administration declared a deliberate purpose to force when it so greatly enlarged the free list and so heavily reduced the duties on nearly all lines of manufactured goods with a view to greatly increasing imports. The imports were greatly increased. The losses of revenue were even greater than had been anticipated. But the anticipated set off against this loss from income tax receipts was not in sight.

A much for incompetence. For the extravagance, it began with the advent of the present administration and appropriations already made and yet to be made, show that it is to continue. We called attention the other day to the striking fact that the ordinary cost of the first year of the Wilson administration was more than \$100,000,000 greater than the ordinary cost of the last year of the Taft administration. As the appropriations are now running, there is no hope of checking this extravagance. It is, accordingly, to restore the waste of incompetence and extravagance that the President now urges the imposition of war taxes, at a time when imports from France and Great Britain are being resumed. The revenues from these resumed importations will not be large, under our present free list and reduced duties, and we are to be taxed to supply the revenues they will not yield, now that it is seen that the income tax is failing and the President opposes making it serve its original purpose in any more effective way. The war taxes will be paid by those "ultimate consumers" the Democratic party came into power to save and protect. They may not be paid by foreign competitors with domestic industry, nor by the recipients of more than average incomes. But when all other sources fail, the "ultimate consumer" is still there.

That the federal officials at Washington do not believe the war will end before the close of the year was evidenced by the departure from Washington for City Point a few days since of the Secretary of War and many of his staff, the announcement being made that a conference is to be held with General Grant and provision made to supply the army with clothing and shoes during the winter.

Several of the neighboring counties in Kentucky have been notified through their officials as to their position with regard to the last draft. Kentucky has furnished eleven more men than its quota, Campbell is short seventy-two and Boone short 113.

The Decreased Consumption of Coffee has caused widespread alarm among the coffee trade.

"There's a Reason"

Twenty years ago the manufacture of Postum was started in the small white building shown above. The business grew!

Doctors found that coffee drinking was hurting the health of people, right and left.

Chemists analyzed coffee and found this harm was due to two health-wrecking drugs, caffeine and tannin.

People injured by coffee stopped its use and started to drink

POSTUM

Twenty great factory buildings covering nearly ten acres now surround the little building where Postum was first made, and carloads of this wholesome food-drink are shipped daily to take the place of coffee on the tables of hundreds of thousands.

Each cup of coffee carries its dose of caffeine and tannin (about 2 1/2 grains of each) and sooner or later symptoms of poisoning show themselves in headache, biliousness, heart disturbance, nervousness, indigestion, sleeplessness, etc.

Relief generally follows when one quits coffee and uses POSTUM.

Postum, a pure food-drink with a rich Java-like flavor, is made of prime wheat and a small per cent of molasses, absolutely free from caffeine, tannin or any other harmful ingredients.

Celebrate Edison Day in your own home

The most fitting tribute any of us could possibly pay to the genius of Edison on October 21, would be to place in our homes the highest development of his greatest invention—

EDISON MAZDA LAMPS

Electric light is now an inexpensive luxury that all may enjoy—for EDISON MAZDAS have taken electric light out of the high-cost-of-living list and placed it among the economies.

EDISON MAZDAS give from 3 to 6 times as much light as the ordinary carbon lamps give—without using any more electricity. That means more light without any increase in your lighting bill.

If your house isn't wired—let us tell you how easily and cheaply the work can be done. Ed. 34

MAYSVILLE GAS CO.

"A LUCKY DECEPTION" TWO PARTS With Eddie Lyons and Victoria Forde.

"THE MIDNIGHT VISITOR" REX DRAMA With Rupert Julian and Elsie Wilson. One Other Good Picture.

On October 21st the world will take off its hat to Mr. Edison in honor of the great invention by which he gave us more hours of daylight.

EDISON MAZDA LAMPS

Let Edison Day remind you that you can get from 3 to 6 times as much light with EDISON MAZDA Lamps as you can with old-style electric lamps without using any more electricity. That alone is a good reason for celebrating Edison Day with EDISON MAZDA Lamps.

If your house isn't wired, let us tell you how little trouble and expense it will be to do the work NOW. Ed. 37
